SUMMARY

Multi-faceted graduate student knowledgeable in Web and Software Development. Assiduous and Innovative when it comes to developing real time applications and enthralled by intelligent applications that can interact with us and driven to contribute in the field.

EDUCATION

University of Maryland, Baltimore County MS in Information Systems	Baltimore, Maryland Enrolled
St. Joseph's College Of Engineering BE in Computer Science	Chennai, Tamil Nadu Graduated May 2019

EMPLOYMENT HISTORY

Freshworks Inc. Software Engineering Intern	Chennai, Tamil Nadu February 2019 - May 2019
I was part of engineering productivity team. Created an administrative tool similar to PHP MyAdmin with VueJS and Ruby Sinatra to do CRUD operations reducing time. In addition to that I also developed a component that fetches data from any table in the database and display the results with an elegant UI reducing 100's of lines of monotonous code. Visualized the data using Highchart's components for the users.	
Hasura Inc. Modern Application Developer	Chennai, Tamil Nadu November 2017 - February 2018
I was part of a team that developed Paypal Express Gateway and was primarily responsible for developing the User-Interface using React. Additionally I also cloned Twitter's User-Interface using React and Material Design as part of an Individual project.	

PROFESSIONAL SKILLS

Java, HTML, CSS	★ ★ ★ ★ ★
JS, ReactJS, VueJS	★ ★ ★ ★ ★
Servlet, Sinatra	★ ★ ★ ★ ★
MySQL, PL/SQL	★ ★ ★ ★ ★
Python, Ruby	★ ★ ★ ★ ★
MongoDB	★ ★ ★ ★ ★
Flask, NodeJS	★ ★ ★ ★ ★

ACHIEVEMENTS

- Finalist of Smart India Hackathon 2018 (Government of India)
- Secured top 5% in IMAD exam by Hasura and NPTEL
- Recipient of the Google-Udacity Android Development Scholarship

PROJECTS

Spot:	Feb – March 2018
An Android app for Real-time identification of Crop diseases using Convolutional Neural Networks and Image Processing	
Voice-Bot 2.0:	Jan – March 2019
Machine Learning based voice bot solution for Customer Support	
Crypto-Rate:	June 2019
Server less website to learn about crypto currency rates and more	
Twitter UI:	Nov 2017
A User interface clone of Twitter using ReactJS and Material UI
